

Entry Level SQL Programmer

SoftRight, one of the fastest-growing municipal software providers in New England, is seeking recent or upcoming computer science majors to join our Westford, MA office as an Entry Level SQL Programmer.

The primary responsibility of this technical role is to develop your SQL skills to support the reporting requests of our clients. The ideal candidate should be a self-starter possessing the right blend of technical and interpersonal skills needed to support the needs of our municipal client base.

Our Requirements:

- Exposure to, and entry-level experience with MS Access and/or Crystal Reports
- The ability to work effectively in a lead role or as part of a team across multiple departments
- A strong willingness to learn

Your Responsibilities:

- Create, test and modify reports within SoftRight's municipal applications suite framework
- Work with the SoftRight implementation team to address the reporting requirements of new clients
- Oversee the repository of SoftRight's system reports

Make Your Future:

SoftRight offers an excellent compensation package including a competitive salary, benefits package and year-end incentives. We have fun at work, so a dynamic personality is a critical component to succeeding at SoftRight. In addition, an unwavering commitment to customer support is critical. The salary range for this position is \$30-\$40K.

To apply for this position, please send a resume and cover letter to careers@softright.com or fax them to 978.692.3301, attn: careers.

SoftRight is an Equal Opportunity Employer

They say great support doesn't exist anymore.

Our customers disagree.
